

Chat Log C:\Users\Deke\Documents\ChatLog AiC Monthly Meeting 2021_05_06 11_42.rtf

Karen Kensek (to Everyone): 11:01 AM: In case anyone is interested, I am planning my BIM BOP conference for June 24th/25th. It is free, on Zoom. If you are interested and not on my email list, please email me at kensek@usc.edu . I will have about 9 longer lectures and 10 very short ones.

Karen Kensek (to Everyone): 11:02 AM: And a new panel on Diversity/Equity/Inclusion in BIM/Technology.

Sanjeev Adhikari (to Everyone): 11:03 AM: Hi Karen, Thanks for organizing. I am interested to attend. My email: sadhika3@kennesaw.edu

Greg Gegana (to Everyone): 11:04 AM: Hi Karen, thanks for invitation. that sounds interesting. my email: lonelanrete@gmail.com

Karen Kensek (to Everyone): 11:22 AM: I see that you are using BIM 360. What modules are you using?

Karen Kensek (to Everyone): 11:31 AM: Thanks, David and Mark! Amazing work organizing that many students.

Karen Kensek (to Everyone): 11:33 AM: Could you put your email in the Chat? I missed the last slide.

David Comiskey (to Everyone): 11:33 AM: da.comiskey@ulster.ac.uk

David Comiskey (to Everyone): 11:33 AM: m.mckane@ulster.ac.uk

Greg Gegana (to Everyone): 11:35 AM: So is it conducted as summer course? is there any prerequisites for students from various discipline?

Karen Kensek (to Everyone): 11:36 AM: @David, Mark -- how many instructors and class assistants do you have?

David Comiskey (to Everyone): 11:36 AM: No, it is part of the core curriculum, delivered in Semester 2 (Jan - May) as a bespoke module

Sanjeev Adhikari (to Everyone): 11:36 AM: Approve

Sanjeev Adhikari (to Everyone): 11:36 AM: 2nd

Mark McKane (to Everyone): 11:37 AM: I insisted that each team dedicate a member of staff to direct their own students and grade their submissions. So there's a team of 6 staff.

Karen Kensek (to Everyone): 11:37 AM: Was the course live or virtual this past year?

Mark McKane (to Everyone): 11:38 AM: It was delivered remotely (virtually), with a combination of pre-recorded demos and live guest lectures via 'Collaborate' (a educational version of MS Teams / GoTo).

Mark McKane (to Everyone): 11:39 AM: Anything that could go wrong - did go wrong :-)

David Comiskey (to Everyone): 11:39 AM: Virtual - which posed its own challenges with student access to software, wifi connections for students living in rural localions etc.

Greg Gegana (to Everyone): 11:40 AM: oh as core curriculum. that must be very complicated in administration especially in credits and how to persuade other departments :)

Mark McKane (to Everyone): 11:40 AM: Educational Licensing for the Autodesk software - stopped working towards the end of January. Licensing arrangements started changing in March. Remote links (WVD and SRAS) starting failing in April due to networking problems). Lots of fun.

Svetlana Olbina (to Everyone): 11:41 AM: Hi Karen, I am interested. Thank you for the invitation. Svetlana.Olbina@colostate.edu

Karen Kensek (to Everyone): 11:41 AM: @Deke - link for EASTMAN event?

Deke Smith (to Everyone): 11:41 AM: <https://dbl.gatech.edu/eastman-symposium>

David Comiskey (to Everyone): 11:42 AM: Mark has led the module fantastically - it is challenging and really relies on each academic to take ownership of their own students in terms of prompts, following up with non-submissions etc.

Sanjeev Adhikari (to Everyone): 11:42 AM: Thank you

Steve Ayer (to Everyone): 11:42 AM: Thanks everyone!

Sandeep Langar (to Everyone): 11:42 AM: Thank you

David Comiskey (to Everyone): 11:42 AM: Thanks all!

Sandra Marques (to Everyone): 11:42 AM: thank you

Greg Gegana (to Everyone): 11:42 AM: thanks
